

## SUMMER AT ST. JOHN

Summer is a time for fun activities with friends!

Our summer program is designed for this purpose! Each morning, a new fun theme is explored through hands-on activities. For example, on “Bubble Day” not only will we explore bubbles outdoors, we will make our own bubble wands, paint with bubbles and play a bubble game. Other themes include “Western Day”, “Let’s Go Camping”, “Goo and Glue” and “Maps & Treasure Hunting”.

Summer is a time to play and relax outdoors! We spend as much time as possible outside playing (sandbox, water, organized games, sidewalk chalk, easel, toys from inside, etc.) and relaxing (gathering in the shade for a word game or story, or laying in the grass on our backs just chatting, enjoying each other’s company, enjoying summer! ☺)

Summer is a time for outings! About once per week, we go somewhere! Local parks, the children’s museum, bowling, the sternwheeler (each child gets to take the wheel!☺), local restaurants, the library, the capitol grounds, the fountain, the carousel. It’s a good time to get out in the community, to learn and to just have fun!

Summer is a time to be a carefree kid...being silly with friends, learning new things, lounging in the grass, playing in a new park, running in the sprinkler! That is what summer at St. John is all about!!!
