

PRESCHOOL 3'S CLASS NEWSLETTER FOR MAY/JUNE 2023

We will learn some of the differences between spiders and insects, among other buggy facts. We will make bug catchers, then go for a walk around the school to try and find a few! We will add toy bugs to our sandbox and rice for some exploration.

We will be learning about what makes each of our mom's special. Of course we will also spend time working on a special surprise!

The difference between pets and farm animals will be explored. We will learn what it takes to care for them and what they need. If you have an animal at home please send a photo. I will be posting them and encouraging your child to share about them.

Then we will get a little more "wild" about animals. We will go on a "bear hunt", sing lots of animal songs and try mimicking the sounds of the wild!

Along with learning about ocean life, we will be keeping a tally chart of the water use in our classroom. We will learn about the importance of water in our lives, and discuss ways that we can save water. We will also learn about protection our oceans and sea life.

We will be reviewing what we have learned about the other three seasons before we learn about summer and what makes it special. We will also share our summer plans with each other.

We will be wrapping things up and celebrating a great year together by having a PIZZA PARTY on our last school day. Please don't provide a lunch on that day!

Our Bible theme for the remainder of the year will be "Fruits of the Spirit"!

UPCOMING EVENTS

Friday, May 19— Field trip to Carousel cost: \$1.50

Monday, May 29 — Holiday; No School or Childcare

Wednesday, June 14 — Last Day; Pizza Party/No packed lunch needed
